

PAMverse Update

Detections & Data Integration & Maybe Something Else

Detection Data

- Getting data from Makara using [dbplyr](#) ([request access](#))
- Integrating detections & environmental data
- Integrating detections & soundscape data
- Demo resources at [pam-ww-tmp/Taiki_Sakai/PAMSI_202609_Demo](#) & demo code on [GitHub](#)

Soundscape Data Quality (if time)

- New tools to edit data quality matrix in Pypam NetCDF output for NCEI compatibility
- Add Compromised / Unusable time-frequency ranges based on either Makara intervals or user-specified ranges
- Update Not Evaluated to Good
- Demo resources at pam-ww-tmp/Taiki_Sakai/DQ & demo code on [GitHub](#)
